The taxpayers, standing firm against pressure which threatens the economic foundation of the town, voted in many cases against the recommendation of the Fin-

ROAD ROCKS MEETING

Picturesque Wolf Island Road will remain natural for another year. In spite of efforts to clad the road in blacktop, the struggle to leave it alone has won another skirmish. It was revealed at the Town Meeting that (1) The Cemetery Committee as sponsors of the petition had never heard of the article and wanted none of it; (2) Residents on and near the road like it as it is. According to the lady speaking in opposition, the town's $10,000 scraper will put the road in condition. In summing up, she stated that more adultery is committed on Wolf Island Road than any place else.

MISS WAREHAM SCHOLARSHIP PAGEANT

Rules, rules, and regulations too, wherever we go we must abide by them, and the Miss Wareham Scholarship Pageant is no exception. The first rule is that each entrant agrees to abide by all the rules of the local, state, and national Miss America Pageants now in effect. Now, if that sounds a bit overwhelming, it isn't, because the rules are really quite simple.

To qualify you must have been for the past six months a resident of the area covered by the Pageant. In this case the area includes the towns of Wareham, Marion, Rochester, Middleboro, Plymouth, Buzzards Bay and Bourne. This rule is waived in the event that an entrant is an out of town resident living in the area as a student.

In regard to marital status, each entrant must be single and never have been married, divorced of had marriage annulled.

Now to proceed to the age old problem of age. The entrant must not be less than 18 nor more than 28 on the opening day of national competition which is September 8, 1966.

Having covered the preliminaries, the qualifications each individual entrant must possess will be considered. She must be of good character and possess poise, personality, intelligence, charm and beauty of face and figure.

The most important and necessary competition requirement is a three-minute display of talent. This talent may be singing, dancing, playing a musical instrument, dramatic reading, art display, dress designing, creative poetry, writing, etc., or the contestant may give a

talk on the career she wishes to pursue such as teaching, nursing, law, medicine, or business, etc. While this is the most important competition, it is also the most enjoyable, because here each girl can express through music, art, speech, or dance her indivduality.

Now if you are an interested contestant, and you are reading this article, you may be saying to yourself about now, "They're certainly not talking about me." All that can be said for that thought is why not let the Pageant Director decide. Contact Rita Blair, Wareham, Mass., or the Wareham Chamber of Commerce. They will be delighted to hear from you, and you are probably just the girl they are looking for.

LETTER TO THE EDITOR:

At the last meeting of Marion Grange, there was discussion of President Johnson's proposal to drastically cut the 1967 budget of the school milk and hot lunch programs.

It was agreed that rather than to reduce these programs, the value of which has been proved for over twenty years, it would be more sensible to expand them, since school populations are

increasing rapidly countrywide.

The savings involved in the proposed cuts are small in comparison with many expenditures for other programs in this country and abroad, many of which seem of doubtful value.

If these school programs are limited to children from welfare homes, as suggested by President Johnson, school principals will find it difficult to administer the program without serious embarrassment to needy children. Last year, when Medicare was being considered in Congress, the means test was considered degrading for oldsters. Is it any less so, when applied to children?

WELCOME TO THE THIRSTY WHALE

I read in the Congressional Record of March 3rd that this fiscal year the Federal Government is spending $103 million for the milk program, providing more than 92,000 schools and child-care institutions with nearly 3 billion half-pints of milk. An estimated 17 million school children benefited each school day. The 1967 budget proposes a reduction to $21 million, a cut of $82 million, or approximately 80%.

For the school hot-lunch program, cost to the Government this current year is $203 million. The 1967 budget proposes a cut to $183 million, a reduction of approximately $19 million. Some 18 million children receive either low-cost or free meals under this program.

I hope that all area Granges and many individuals will write to Congressman Hastings Keith, House Office Building, Washington, 25 D. C., and to Senators Leverett Saltonstall and Edward M. Kennedy, Senate Office Building, Washington, 25, D. C.
